

The Paducah Evening Sun.

VOL. XXVII, NO. 82.

PADUCAH, KY., WEDNESDAY EVENING, APRIL 6, 1910.

TEN CENTS PER WEEK

TOBACCO DAY AND CORN DAY AT FALL FAIR ARE PLANNED

Purchase Farmers Will Have Chance to Display Their Products.

Agricultural Exhibits Will be Features.

ASSOCIATION SELECTS DATE

Dates for the best fair and race Paducah has ever enjoyed were fixed for the coming fall fair by the Paducah Fair Association, which met at 7:30 o'clock last night at the office of Secretary Rodney Davis. For the fair and races September 28 to October 1, inclusive, has been set with July 4 and 5 and possibly July 16 for the association races. The fair will run into Saturday, which it has never done before, but the association officers believe this will be a good day to have the tobacco exhibit, as the farmers can come to the city more easily than on any other day.

At the solicitation of the merchants and farmers of Paducah and McCracken county the association fixed the dates for the latter part of September. The farmers said that August would be too early.

It will be an old time fair and every day will be a feature day. The association has asked the ladies of the city and county to help fill out the displays of jellies, jam, preserves, cakes and other delicacies. Women all over Western Kentucky are asked to take part. Farmers in the county are asked to make preparations to bring their hogs, horses, cattle and mules here for display as well as farming products. Awards will be made for the best specimens.

Tobacco Day.

Tobacco day will come on Saturday, as it will be more convenient for the farmers to come out in large numbers. A stock day will be held, on which all kinds of fine domestic animals will be on display.

The races will be fast and some fast horses will be out on the track. There will be untrained races for trotts and paces, separate, and a big brass band will furnish music during the day. Refreshments booths will be plentiful and the concessions will be let a short time before the approaching dates.

The consent of W. L. Tolbert, of Pontiac, Ill., to be the starter for the races, will be pleasing news to race horse lovers. Mr. Tolbert is fair and square and has given perfect satisfaction during the past.

Secretary Davis is busy this afternoon, writing parties in the county and elsewhere, about the premiums and awards to be made. The committee to work out these details will be here Saturday afternoon at 2 o'clock. Mr. Davis is anxious that farmers, desiring any information, write or telephone him. The farming display will be one feature of the fair this year, and corn, wheat and other products will be displayed attractively.

A program committee will soon be appointed and work towards the success of the fair will progress steadily from now on. The wholesale and retail merchants of Paducah will give liberal support this year. No arrangements have been made yet for the July races.

He Was Short

Kansas City, Mo., April 6.—Information that a \$60,000 deficit exists in the accounts of the late City Treasurer William J. Baehr, who was found dead, supposedly from apoplexy, was given out by the surety company on Baehr's bond this morning. The shortage is said to have been caused by alleged irregularities in handling the cash account.

SOCIALIST MAYOR WILL REDEEM HIS PLEDGES

Milwaukee, April 6.—The Socialist mayor, newly elected today, pledged himself to redeem his campaign pledges. He said nothing revolutionary will be done. Some reforms he is pledged to introduce are initiative and referendum, municipal ownership of water and gas plants, seats in the street cars, an eight hour day and corporations to pay their full share of taxes.

Socialists expect to make many improvements in the city, including three cent car fares, cheaper gas, penny lunches, trades union competition on labor, to make car company sprinkle the streets and have home rule. They say they will reform

Fiscal Court Selects Committee to Consider Economical Plan for Management of County Poor Farm

Reconsiders Previous Action When Attorney Says Office Can be Abolished at Any Time.

Reconsideration of the vote to retain the present contract system for the poorhouse was taken this morning by the members of the fiscal court, and as a result a committee was appointed to employ a keeper on a regular salary and the county furnish the provisions. The method will be tried as the best means of caring for the paupers properly, and yet at a smaller cost to the county. Magistrate Householder made the motion, which was seconded by Magistrate Bleich, that the vote be reconsidered and on roll call all of the members voted favorably with the exception of Magistrate Kuykendall. Magistrate Bennett inquired what kind of contract had been made with the keeper, W. A. Thompson, and in the records of the meeting October 6, 1908, was an order that W. A. Thompson had been elected keeper of the county poor farm for a term of two years, with compensation fixed at 40 cents a day for each inmate.

When called upon for an opinion, County Attorney Sanders E. Clay said that the office of poor farm keeper was created by the fiscal court and he believed it could be abolished at the pleasure of the members. He said he thought the court could elect another keeper, but considered the abolishing of the office the best plan. Further he stated he believed the county would not be liable for an expense made by the keeper, but said it was a moral obligation and recommended that if the office is abolished the county should pay any expense of Mr. Thompson.

County Judge Alben W. Barkley read the statutes, covering the establishment of the poor house and said the fiscal court has the right to remove the officer with or without cause. After considerable discussion a vote was taken whether the committee should be appointed, and it passed favorably, all magistrates except Magistrate Kuykendall voting for it. County Judge Barkley named Magistrates Walston and Emery as members of the committee.

Road Machinery.

After nearly an hour's discussion the question of purchasing road machinery ended almost in the same place as when the talk was begun. The committee appointed to consider a purchase of road machinery recommended the "Perfection" graders at a cost of \$250 each and of the "Perfection" road drags at a cost of \$35 each. J. E. Rogers & company offered to sell the county a grader of the "Indiana," "Chimax" or "National" make for \$160, which was without the commission. The "Austin Western" grader was offered at \$215.

J. R. Thompson, county road

ANDY NOT ILL.
New York, April 6.—Because reports circulated that Andrew Carnegie is in a serious condition, after his western trip, the following statement was issued this morning: "Mr. Carnegie is not ill." He is simply tired from his Pittsburgh trip and the receptions, etc., given in his honor. No physician was called in.

supervisor, recommended the "Perfection" and explained that the "Indiana" graders have proved unsatisfactory. He said a more substantial grader would be better. A motion to purchase the graders from J. E. Rogers & company was lost and the motion of Magistrate Kuykendall for the county judge and county road supervisor to purchase two machines they thought best passed.

Miscellaneous.
County Attorney S. E. Clay presented a bill from William Wheelers for \$89 due for the caring of small-pox patients from the county at the city pest house. The city filed a similar bill several months ago. There was a discussion whether the county was liable, and Magistrate Emery made the motion that the county attorney consult the city solicitor.

Poll tax assessed erroneously was refunded to the following: J. F. Thurston, W. J. White, James Rickman, E. M. Kennett, Dan Orr. Other claims for a refund were held up until an affidavit, stating the person was not a resident of the county at the time, are filed.

Dr. S. Z. Holland presented a bill of \$20 claimed due for medical services rendered as an expert witness in the trial of Hiram Smalley. The bill was rejected by the court.

The county attorney reported that he had investigated the law and found that the commissioner was elected for one year instead of an indefinite period.

A claim of \$8 from W. M. Tucker for a loss sustained by sheep being killed by dogs was ordered certified to the state auditor for payment.

Action Taken Yesterday.

Economy in the maintenance of the county poor house was advocated

(Continued on Page Four.)

Eminent Mason Coming

Paducah Masons will be visited by an eminent officer of the grand lodge this month. John H. Cowles, grand master, of Louisville, is expected to pass through Paducah between April 16 and April 19 en route home from attending the Imperial Council of Mystic Shriners to be held in New Orleans April 10 to April 15, inclusive. The local lodge will have a regular meeting April 19 and it is hoped Mr. Cowles will be here then. He has promised to deliver an address before the Paducah lodge.

Suit Case Mystery Engages Officers

A suit case mystery is puzzling local detectives and efforts are being made to locate Oper Henson, a young man supposedly of Big Sandy, Tenn., to whom a score of letters and post cards were addressed, found inside a grip. It was picked up a mile and a half up Massac creek Monday evening. The grip contained a shirt, one collar, several keys, a pair of suspenders and other articles.

The history of the suit case carries with it the mysterious wanderings of three tramps seen at Maxon Mills Tuesday night, March 29. It also is thought to have some bearing on the theft of a suit case from the N. C. & St. L. railroad station here about that time.

Ed Willett, farmer, living at Maxon Mills came across a drenched suit case on the banks of Massac creek Tuesday morning. Near the grip were a man's soiled underclothing, a jumper, socks, a corduroy cap, black trousers and a pocket handkerchief. Mr. Willett hurried home and telephoned Detectives Moore and James Collins at Paducah. Detective Moore mounted a bicycle and rode to the scene. He found the case had been broken into and in his opinion it was stolen and the clothing inside exchanged for a tramps togs. The

underclothing and other garments found nearby are supposed to have been discarded by the tramp.

Tuesday night March 29 two boys of Maxon Mills, who were returning home, ran into three tramps camping along the right of way of the Illinois Central railroad, just below the high bridge there. The boys carried a lantern and blinded by its light they came upon the men before they were aware of it.

"Don't be afraid," said one of the tramps, "we won't bother you." The boys, frightened, hurried home. The day following two of the tramps appeared at Maxon Mills and complained that tramp No. 3, had stole away from them while they slept that night, taking the grip. The grip is supposed to be one found at Massac creek and the tramp evidently swapped clothes. There was no indication that anyone had drowned in the creek.

The grip was soaked from the rains and Detective Moore brought it to Paducah. Going through it he found the pack of post cards, letters, etc., addressed to Oper Henson, Big Sandy, Tenn. The shirt was a 15½ in size and of the "Winston" brand. A linen collar was wet and was apparently new. There was a trunk key, a skate key and many other minor articles. In his opinion the suit originally belonged to Oper Henson and was stolen from the depot by three tramps. Tramp No. 3, beat his pals out of it and left, neatly attired. No word has been received

MRS. LUCY SAYLER TELLS STORY OF HUSBAND'S DEATH

Corroborates Everything Dr. Miller Said About Killing in July.

Denies Improper Relations With Miller.

THEY FITTED HORSESHOES.

Watseka, Ill., April 6.—The long expected sensation arrived today in the Sayler murder trial when Mrs. Lucy Sayler took the stand. She was on the stand two hours and told of her life with Sayler and the occurrence the night the banker was shot by Miller. She had spells of hysteria, and the proceedings were frequently interrupted. The court room was jammed. Mrs. Sayler denied that her relations with Dr. Miller were improper. She corroborated the story of the shooting as told by Miller yesterday.

Dr. R. W. Miller dramatically recited his version of the shooting at Crescent City last July. His co-defendants, Mrs. J. B. Sayler, widow of the slain man, sat with bowed head and tear-stained eyes.

The witness said the shooting followed Sayler's refusal to join the three defendants in a game of cards. He says that he rushed into the parlor, seized a hand axe from beneath a couch, overturning a lamp.

"He came at me like a mad man, brandishing the hand axe and shouting 'I'm going to kill you,'" said Miller.

"He stumbled against the table, overturning the lamp, and the first blow struck my upraised arm. He lurched upon me and I could not escape. I grabbed for his arm with my right hand, and he pulled away. Again I caught it. It was dark; his hand was on my throat. I drew my revolver and shot quickly. I could not see him.

"The third shot struck my wrist. After the fourth he drew away and I could dimly see him stagger back, stand upright, then topple over against the wall.

The overturned lamp still burned feebly. John Grunden took my gun. We bound up my wrist and I looked at the body.

"Out on the porch I met Mrs. Sayler and told her by was dead. "My God, what shall I do," she said and knelt beside the body of her husband."

Miller was three hours on the stand, questioned by his own counsel, and was subjected to severe cross examination by Attorney J. W. Keastar, of Danville, who is aiding the state's attorney.

Many incidents of the day preceding the shooting were touched by the questions. Miller testified to having passed most of the day in the company of Mrs. Sayler, her father and brother, while her husband stayed away from home and did not appear at meal time.

In pitching horseshoes and playing cards that day Miller said Mrs. Sayler was his partner. It was brought out that they occupied the same seat in a surrey in a trip to a ball game and a drive in the country.

COTTON FUTURES ARE TO BE BARRED

COMMITTEE OF LOWER HOUSE DECIDES TO PUSH ITS PASSAGE.

Washington, April 6.—By practically a unanimous vote the house committee on agriculture today agreed to report favorably the bill, prohibiting gambling on cotton futures. The bill will be pushed for passage.

Frank For Roosevelt.
The House this afternoon passed the bill, granting the franking privilege to former president Roosevelt. The vote stood 120 to 76. McCall was the only representative on majority side to vote in the negative.

THE WEATHER
The predictions and temperatures for the past twenty-four hours will be found at the top of the seventh column on page

Tornado Unroofed Many Homes at Central City Last Evening But No One Was Injured—Damage \$5,000

The Rev. E. B. Landis is Elected Moderator of the Princeton Presbytery After Delivering Brilliant Sermon

Central City, Ky., April 6 (Special).—Tornado here Tuesday caused loss estimated at \$5,000. A number of houses were unroofed, chimneys were blown down and barns and outhouses destroyed, plate glass windows were broken. No one was injured.

Princeton Presbytery.

Hopkinsville, Ky., April 6. (Special).—The Rev. E. B. Landis, pastor of the Kentucky avenue Presbyterian church in Paducah, last night was elected moderator of the Princeton Presbytery of the Presbyterian church of the United States by acclamation. It is quite a recognition of the ability of the Rev. Mr. Landis, as he is one of the new members of the Presbytery, and a young man.

His election as moderator came at the close of a brilliant sermon on "The Barren Fig Tree," which was the opening sermon of the presbytery. This morning the Rev. T. H. Hoofield, of Mayfield, preached a strong sermon on "I am not ashamed of the Gospel of Christ." This afternoon plans for the improvement of the Princeton Collegiate institution, which is an educational institution, under the presbytery, were discussed.

The sessions of the Presbytery are being held in the First Presbyterian church, and a large attendance is present, with much interest being taken by the delegates. The Presbytery will close Thursday night. Delegates from Paducah are: The Rev. E. B. Landis, John G. Miller, Sr., Mr. Pearson Lockwood and Miss Bessie Hovenden.

Will Not Paint Market.

The city market house will not be painted. Mr. Finis E. Lack, a member of the board, inspected the building today at noon and reported to President Rudy, of the board. Last night at the board meeting it was ordered that bids be advertised for.

Half of Michigan Dry

Detroit, Mich., April 6.—Complete returns from the 36 counties in Michigan where local option elections were held yesterday show that 20 counties voted "dry" and 16 "wet." Of the 83 counties in Michigan 40 will now be dry and 43 wet.

INDIANA VIEWED DIFFERENT WAYS

INSURGENTS PLEASED, STAND PATTERS SORE AND PRESIDENT SMILING.

Washington, April 6.—Write house has nothing to say on Senator Beveridge's attitude toward the Payne tariff law, as expressed in his speech to the convention yesterday. Regulars are deploring the "insurgency" in the Indiana platform. Insurgents are satisfied. Senator Clapp, of Minnesota, said today, the platform is especially to be recommended in its demand for a real tariff commission. He believes that congress will be able to pass a law creating such a commission. Representative Culom, Republican, said no self-respecting Republican can support such a platform.

Taft's determination to leave the Indiana situation alone was apparent today, when it was announced the president will not visit Indianapolis, on his western trip in May. Arrangements had been completed for the president to visit Indianapolis on his trip to Buffalo, Pittsburgh, Cincinnati and St. Louis, beginning April 30, and he was expected to talk there. The text of the message given out today is: "The president will hardly be able to arrange for a stop at Indianapolis."

FINDS PARENTS LYING IN THEIR OWN BLOOD

Canton, Ohio, April 6.—What is expected to develop into a double murder was discovered this morning. Their son found Warren Kroons and his wife dying at home. Neighbors investigated and found the couple unconscious in a bedroom lying in a pool of blood. Mrs. Kroons died. Mr. Kroons was taken to a hospital

DOGWOOD WINTER.

According to the local weather forecaster, this cold snap is "dogwood winter," and will hold forth for several days. Blackberry winter will not be due until the last of April. The drop in temperature made fires comfortable last night, while early this morning the fellow, who had not gone to the pawnshop with his overcoat, was in great joy. The dogwood trees are full of blossoms now, and if the old prophecy be true it is responsible for the chilly weather.

ROBBERS MURDER BANK OFFICIALS

ALL SUSPICIOUS CHARACTERS OF PITTSBURGH ARE BEING ROUNDED UP.

Pittsburgh, April 6.—Five men were arrested today, suspected of complicity in the robbery of the Victor Banking company at McKee's Rocks last night, in which two men were killed and two wounded by four desperadoes. Every suspicious character is being rounded up. The dead are: Ignatz Swartz, cashier, and Samuel Friedman, general manager of the bank. The robbers secured \$400. The men entered the bank at 9 o'clock last night.

Two dynamite bombs were found near the bank this morning equipped with fast fuses. Police believe the robbers intended to use them if they could not gain entrance any other way. A large crowd of bank depositors gathered in front of the bank this morning fearing their savings were gone.

Lone Bandit Confesses.

Springfield, Mass., April 6.—Police today announced that Bertram Spencer is arrested on suspicion of being the masked bandit, who for a year terrorized Massachusetts. He entered the Dow home, March 31, and killed Martha B. Blackstone and wounded Harriet Dow. He made a complete confession.

Two Battleships For France.

Paris, April 6.—The senate voted \$32,000,000 for the immediate construction of two 23,000-ton battleships. One of these ships is to be fitted with turbines.

Dr. Kidd Had Two Votes.

Dr. O. R. Kidd received two votes for county physician on the second ballot cast by fiscal court yesterday morning instead of one vote.

Cleans Teeth With Carbolic.

Mistaking a bottle of pure carbolic acid for her tooth wash, Mrs. Percy Paxton, of Jefferson street, between Sixteenth and Seventeenth streets, was severely burned at 7 o'clock this morning. Recognizing her mistake a short time later she washed her mouth with alcohol, counteracting the effects of the acid. The acid was in a bottle similar to the one containing the tooth wash.

THIS MAY BE MAN PADUCAH WANTS

FRANK B. HOUSTON ARRESTED IN OREGON FOR LEXINGTON JOB.

In the arrest of Frank B. Houston at Klamath Falls, Oregon, yesterday, the police of Paducah believe they have found the same man who raised a draft for \$3.50 from the City National bank here and cashed it at Muskogee, Okla., for \$3,500 a short time ago. Houston is wanted at Klamath Falls for cashing a forged draft for \$600 on the American Bank and Trust company of that place, from a bank in Lexington, Ky.

Houston is said to have gone to Klamath Falls only a short time ago and organized a hotel company with a capital stock of \$100,000. In this way he induced the bank of that place for cash the draft. It is possible for him to have been in Paducah a few weeks ago, when he registered at a local hotel as C. E. Elder. The handwriting tallied exactly with the

HONEYMOON TRIP OF ROOSEVELTS GONE OVER AGAIN

Colonel Begg Off From Companionship of Newspaper Men.

Will Reappear Again Publicly at Genoa.

MEETS PINCHOT IN MEANTIME.

Rome, April 6.—After his departure from Rome tonight, Roosevelt will drop out of the public eye until his arrival at Genoa, April 13. He requested all correspondents to leave the party until that date. There is a sentimental side to Roosevelt's desire for privacy. He and Mrs. Roosevelt will travel on the route taken on their honeymoon.

At 8:30 tonight Roosevelt will leave for Spezia to spend three days at Porto Maurizio, the home of Miss Carow, Mrs. Roosevelt's sister. The colonel will meet Gifford Pinchot at Porto Maurizio. It is said he will not make the subject of the meeting public. He plans to motor to Genoa and sail for Vienna April 12. Roosevelt is pleased with the receipt of telegrams from Catholic priests, commending his attitude taken with the vatican. He refused the names of the senders. Tonight he is the guest of honor at a dinner.

Mrs. Nell Plastrick.

Mrs. J. R. Province, 1045 Trimble street, received a telegram yesterday announcing the death of her niece, Mrs. Nell Plastrick, in Denver, where she went several months ago in hope of benefiting her health. Mrs. Plastrick was well known in Paducah, as she resided here for several years, and last November went west. Her health did not improve and she became worse until death. She was a bright woman with many friends. She was a member of the Cumberland Presbyterian church of McKenzie, Tenn. She is survived by one sister, Mrs. Johnson, of Oklahoma City; one brother, Mr. Edward Wright, and an aunt, Mrs. J. R. Province, of this city. The funeral and burial took place today in Denver.

Bootlegging Charge

Deputy United States Marshal Elwood Neel today brought in two colored men from Murray charged with bootlegging. Crate Pittman was dismissed by United States Commissioner Gardner, and John Crogan was sent to jail in default of \$200 bond.

PADUCAH HOME COMPANY FILES NEW ARTICLES

Articles of incorporation were filed today with the county clerk by the Paducah Home Telephone and Telegraph company at a capital stock of \$10,000. The limit of indebtedness is fixed at \$250,000. The company will continue for 25 years and is a reorganization of the old company that went into the hands of a receiver a short time ago. The incorporators were: Isaac E. Kinsley, 31 shares; R. D. Crane, 31 shares, and Ed H. Cady, 31 shares, all of Toledo, O.; J. D. Powers, of Louisville, 3 shares, and Sam H. Heller, of Louisville, 3 shares.

Chicago Market.

Ribs	.13.42	.13.05	.13.07	

Where Patten Lost.

Chicago, April 6.—Sudden shrinking of cotton prices yesterday cost James A. Patten half a million, as reported today by exchange members. It will please Manchester cotton men.

Tobacco Auction.

At Bohmer's loose leaf tobacco warehouse today 47,000 pounds of tobacco were offered and sold. There were no rejections. High price, \$11.85, low, \$6.75, making an average price of \$10.33. Movement was strong and steady. This was the first sale for several days. A large amount of tobacco came to Paducah today from all sections of the county, but most of it is contracted for. At the Western District warehouse the graders are completing their work today, preparatory to association sales tomorrow. Old-time auction

ARE YOUR KIDNEYS WEAK?

Thousands of Men and Women Have Kidney Trouble and Never Suspect It.

Nature warns you when the track of health is not clear. Kidney and bladder trouble compel you to pass water often throughout the day and get up many times during the night.

Unhealthy kidneys cause lumbago, rheumatism, catarrh of the bladder, pain or dull ache in the back, joints or muscles, at times have headache or indigestion, as time passes you may have a sallow complexion, puffy or dark circles under the eyes, sometimes feel as though you had heart trouble, may have plenty of ambition but no strength, get weak and lose flesh.

If such conditions are permitted to continue, serious results are sure to follow; Bright's disease, the very worst form of kidney trouble, may steal upon you.

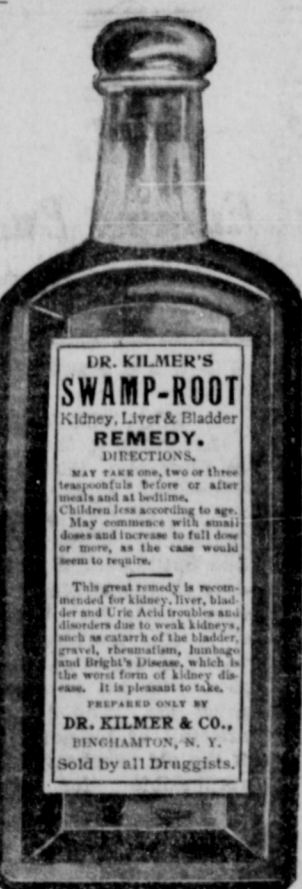

Prevalence of Kidney Disease. Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, who usually content themselves with doctoring the effects, while the original disease constantly undermines the system.

A Trial Will Convince Anyone. If you feel that your kidneys are the cause of your sickness or run down condition, begin taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because as soon as your kidneys begin to get better, they will help the other organs to do so. In taking Swamp-Root, you afford natural help to Nature for Swamp-Root is a gentle healing vegetable compound—a physician's prescription for a specific disease.

You cannot get rid of your aches and pains if your kidneys are out of order. You cannot feel right when your kidneys are wrong.

Swamp-Root is Pleasant to Take. If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at all drug stores. Don't make any mistake but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., which you will find on every bottle.

SAMPLE BOTTLE FREE—To prove the wonderful merits of Swamp-Root you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands of letters received from men and women who found Swamp-Root to be just the remedy they needed. The value and success of Swamp-Root is so well known that our readers are advised to send for a sample bottle. Address Dr. Kilmer & Co., Binghamton, N. Y., be sure to say you read this generous offer in the Paducah Daily Sun. The genuineness of this offer is guaranteed.

Swamp-Root is always kept up to its high standard of purity and excellence. A sworn certificate of purity with every bottle.

Halley's Comet and Its Itinerary Around The Sun and Past The Earth

The visit of Halley's comet to our skies, after an absence of 75 years, is one of the supreme events of a lifetime. While the popular frenzy and superstition associated with its appearance in 1456 are not now to be looked for, it is safe to say that the nightly presence in our sky of this monster of celestial depths will excite universal interest. It is with a view of enabling one to keep track of this stranger for a time, that the following dates and facts are brought together.

"On the 13th of May the comet crosses back into the evening sky and will be about that time at its biggest and its nearest to earth. It is at about that time also that earth and moon are expected to pass through the comet's tail. In that period there will be ten days or so of wonderful evening views, after which the comet will somewhat rapidly retire into space and fade from view."

Itinerary of the Comet.

April 1—Comet's distance, 130,000,000 miles.
April 4—Comet rises, 4:44 a. m.
April 12—Comet moving more than 100,000 miles an hour.
April 16—Comet rises, 3:45 a. m.
April 19—Comet at perihelion—nearest the sun; speed fastest, 1878 miles a minute.
April 24—Comet rises, 3:09 a. m.; now turns back east among the constellations.

May 1—Comet's distance from the earth, 63,000,000 miles; close to Venus in the sky today.

May 6—Comet rises, 2:38 a. m.; earth crosses comet's path, where comet will be May 26, but not in the same plane.

May 7—Comet 5 degrees south of star Gamma Pegasus.

May 8—Comet rises 2:46 a. m. Comet's greatest elongation west of the sun, as seen from the earth. Comet 10 degrees north of Venus.

May 9—Comet crosses Venus' path retreating.

May 10—Comet rises, 2:24 a. m.; distance from earth, 33,000,000 miles.

May 12—Comet rises, 2:32 a. m.

May 14—Comet rises, 2:40 a. m.

May 15—Comet rises, 2:49 a. m.

May 16—Comet rises, 2:08 a. m.; 7 degrees south of star Alpha Arctis.

May 17—Comet rises, 3:32 a. m.; distant 12,000,000 miles, about its nearest; came within half that in 1835.

May 18—Earth and comet passing; comet in conjunction with the sun on the nearer side, and at the same time at descending node, the two resulting in a transit of the comet across the sun's face, occurring between 1:31 and 1:45 a. m., eastern time, hence invisible in this country, but between 6:21 and 6:45 a. m. Greenwich time, hence visible in Europe, Asia and Africa. Earth and moon now proceed to pass through the comet's tail, but without result.

May 19—Comet again in evening sky, appearing ever higher in west, and moving rapidly; today 3½ degrees north of Aldebaran.

May 20—Comet sets, 8:11 p. m.; enormous size.

May 21—Comet just where it was among the stars about October 1; today passes close to Gamma Gemini. Comet sets, 9:12 p. m.

May 22—Comet sets, 9:57 p. m.; passes 7½ degrees north of Procyon.

May 23—Comet sets, 10:28 p. m.

May 24—Comet sets, 10:34 p. m.

May 25—Comet sets, 10:55 p. m.

May 26—Comet sets, 11:06 p. m.; crosses beneath earth's path, at a distance therefrom of about 6,000,000 miles, in retreating into space.

May 27—Comet sets, 11:17 p. m.

May 28—Comet sets, 11:22 p. m.

May 29—Comet sets, 11:23 p. m.

May 30—Comet sets, 11:29 p. m.; now gradually approaches the sun again, as seen from the earth, and fades away as it retires into space.

July 7—Comet crosses Mars' path, retreating; again retires behind the sun during the month of July.

July 27—Earth passes the perihelion point of comet, where it was April 19.

August—Comet passes again into morning sky, but visible only in telescopes.

September 11—One year since discovery of comet by Wolf, of Heidelberg, then distant 350,000,000 miles.

May 20, 1911—Comet crosses Jupiter's path, in retreat.

A. D. 1985-1989—Halley's comet next due.

No Danger of Collision.

The planets of the solar system—Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus and Neptune—travel in concentric paths, so spaced apart that, though they move in nearly the same plane, there is not the slightest possibility of collision. But, though we have found that a comet's path is something definite—so much so as that of a planet—yet

the two facts that its path crosses the paths of the planets, and that new comets, with unknown paths, are constantly bursting upon our vision, might well give us concern as to the safety of our globe.

This question may be dealt with partly on the basis of probability. It was the opinion of Babinet that a collision was likely to occur once in 15,000,000 years; Prof. William H. Pickering regards the core of a comet, from which the chief danger would rise, as liable to strike the earth once in 100,000,000 years. He finds that, in the last half of the nineteenth century 121 comets penetrated the sphere of the earth's orbit. From this he deduces that we should expect to be struck by the core of a visible comet only once in about 400,000,000 years; but we might expect collision with some part of the larger head once in 4,000,000 years. He, however, doubles this frequency to once in 2,000,000 years, owing to the fact that the orbits of comets are more frequently distributed near the ecliptic, the plane in which the earth travels. He believes that, during the great star shower of 1833, we passed close to the core of an invisible comet, and possibly the same in the year 902, the "year of stars." There is nothing in these figures to startle a man who hardly expects to survive three-score and ten. At their worst showing our chances of collision are one in every 2,000,000 years.

Yet, in "Popular Astronomy" for June, 1909, Professor Pickering points out what he believes is direct evidence of a cometary collision. This is found in what is known as Coon Butte in Northern Arizona. This, it seems, is really no butte at all. In the midst of a plain rises a hill, 150 feet high, with a crater of precipitous walls, three-quarters of a mile across. In this neighborhood about a dozen tons of the so-called Canon Diablo meteorites have been picked up, of a character entirely different from that of the adjacent rock, supposedly the fragments of a comet's head. Two thousand of these were found arranged in a crescent, concentric with the crater. Under the latter are found great deposits of silica, so finely powdered as quite clearly to demonstrate the work of sudden impact. Meteoric matter has been found mixed with this to a depth of 900 feet. Large pieces of meteoric iron have also been found at somewhat lesser depths.

Professor Pickering gives his attention also to the fact that seven of the world's 10 largest meteorites have been found within 900 miles of this point, some of these lying within 100 miles of each other, suggesting community of origin. From these and other facts he concludes that, in Coon Butte, we have evidence of the earth's having been struck, at some time in the past, by a part of the nucleus of a comet; this, because it happened to be moving in the same direction as that of our globe, overtook it with a "rear-end collision," which consequently was lacking in sufficient force to do greater damage. This is, perhaps, the only positive evidence existing that the earth, in all the ages of its history, was ever actually struck by a comet.

If it happened once, it might happen again; although, according to French astronomers, there is no danger whatever from Halley's comet, and only one chance in 281,000,000 from all the rest. If comets traveled the same plane with the earth, as the planets do so nearly, then the probability of collision would be greatly increased. But comets strike in from all conceivable directions, and in planes diverging from ours by all conceivable angles. And, though many of them cross the path of the earth twice in coming and going, they do so as elevated and subway trains cross the path of a surface car. It is the aim of railroad builders to eliminate the grade-crossing. In the universe it is eliminated. It is almost an incredible thing that a comet should strike directly into the earth's path.

In the case of Halley's comet, now sweeping down upon us, and so soon to fill all with awe and some with dismay, this body rises above the earth's level on January 18, 1910; crosses our path overhead on March 11; drops below the earth's level on May 18 and crosses beneath our path on May 27. Even if the comet's crossing our plane should take place where it also crosses our path, the probabilities against the earth's happening along at the same instant would be practically infinite. Here is the earth flying through space at 1,000 miles a minute, and Halley's comet dashing across our path at 1,548 miles a minute. With such speed, we should have to meet at the same instant to have a collision at all. If the earth reached the point of intersection one minute after the comet, the comet would have gone from that point one minute earlier and would already be 1,548 miles distant. As a matter of fact we are to come no nearer than a point 12,000,000 miles from Halley's comet—48 times as far as the moon.

The tail through which we expect to pass about May 18 contains no element of danger; but if the solid matter of the core of a large comet, coming head on, should strike the earth squarely, doubtless it would put the comet out of commission, possibly the earth, too. Our sphere might be seriously damaged, its revolution and rotation disturbed. The present arrangement of the sun

sions altered, all kinds of life destroyed over a wide area and possibly over the entire globe. Even a brush with the edge of a comet's head might so vitiate the atmosphere as to produce a catastrophe that would clothe Vesuvius with the garb of innocence.

Thoughtful men have, however, always been impressed with the orderliness of the universe. One can not be accused of being either unscientific or over-religious who discerns that the universe is traceable to an Author, who so superintends the works of his own hands that the divine purpose, in human existence and in centuries of human struggle, shall not be defeated by any chance that would bring an untimely end to the abode of the highest creatures that God has made.

Periodic Comet.
A comet is always found following one of three kinds of orbits, and three observations, on as many nights, are all that are usually needed to determine, in the astronomer's mind, which orbit it is pursuing.

It is supposed that all comets come from a distance and were originally visitors. Where they came from and how they came to be no one knows. Courting through space, a comet comes within the sphere of our sun's

attraction, turns out of its course to salute the sovereignty of the solar system, swings about that body and flies back into space. Commonly its path is found to be either an hyperbola or a parabola, each an open curve, the two sides, in the case of the former, constantly diverging; in the

HALLEY'S COMET

Continued From Page Two.

case of the latter constantly approaching parallel lines, but in neither case completing the curve. Such a comet will never return.

But if a comet, entering the solar system on such a curve, must "stop lively" or have its course altered. If, at the earth's distance of 93,000,000 miles from the sun, the comet be coursing more swiftly than 26 miles a second, it will keep to its hyperbola or parabola, and never return. But, if it drop below that speed, under the influence of the new forces encountered in our solar system it will be tied up in an ellipse. This latter path may be described as a compressed or elongated circle.

It is in this way that comets are actually made prisoners by our planets, and made to conform to the unending treadmill of the ellipse, instead of roaming the universe in the broad liberty of the hyperbola or parabola. Drawn in by the attracting power of the sun, they not infrequently have to pass near one or more of the planets en route. The attraction of the planet then slows down the comet's speed below the fatal mark of 26 miles a second at the earth's distance, and henceforth the comet is ours. The closed path of the ellipse will bring it back periodically whether, like Encke's comets attraction less than that of Mars like the present visitor, Halley's comet, in 75 years, or like Donati's comet of 1858, in 2000 years. Neptune, our most distant planet, is believed thus to have captured Halley's and five others, Uranus three, Saturn two and Jupiter about 30, because of its great size and power and the greater nearness of the comets' orbit to its own.

But there is every probability that a comet will lay its orbit in a plane different from that of our earth. So it is with Halley's comet, whose orbit is inclined 18 degrees to the ecliptic. Only as it draws near the earth and the sun does it cut our plane. Backward in space the paths constantly diverge, until, where the comet may be said to be passing Neptune, it is no less than 750,000,000 miles from that planet—so far that it would feel

MILES MEDICAL CO., Elkhart, Ind.

its attraction less than that of Mars and the earth in passing them. On this account it is with difficulty that we believe that Neptune captured it, unless its path has been subsequently altered. It is on this theory, however, that so great an authority as M. Flammarion, the French astronomer, bases his argument for another planet beyond Neptune, inasmuch as the course of the comet of 1862 seems to demand such a planet to account for its presence in the solar system as a periodical comet.

Could we ride the comet, then, approaching the sun nearer than Venus, the orb of day would appear four times its size as seen in the earth's

sky; but, retreating to a distance of 500,000,000 miles farther than that of the most remote known planet of our system, it would appear only as an inconsiderable star, whose light would require five hours to travel the intervening space, instead of the eight and one-half minutes required to reach the earth. Light from the sun, then, at 6 A. M. we should not enjoy till 11 in the morning; at 6 P. M. we should still see the sun-star shining on till 11 at night. An electric message between the comet and the earth would at the same time require about as many hours for its transmission, regardless of the usual delays in office and delivery.

When the comet is sighted it is seen in the direction of certain stars, and appears to be actually among them. It is, however, countless millions of miles nearer than they. Thus the comet's light now comes in only a fraction of an hour because of its proximity; but Sirius, brightest of all stars, requires eight and one-half years for its light to travel to the earth.

At present, high in the southwest, is seen the brilliant winter constellation, Orion. Ready to compete for COMET 3 (continued) with its two first-magnitude stars, Rigel and Betelgeuse, and the adjacent orbs of like glory, Sirius, Aldebaran and Procyon, the comet was found. In the northern part of the constellation, about two degrees west of the star Nu Orionis, there it was in autumn. Note the row of three conspicuous stars in Orion's belt. From the middle of these draw a line northerly to the bright red star Betelgeuse; then continue it about as far again, and you have found, if not the comet, at least the spot where the comet was. But its course westward, through that great letter V laid on its side and marked by bright red Aldebaran, that is, the Hyades' group of the constellation taurus, it then passed along the south part of Aries and then into Pisces, where it is now, low in the west.

The camera and telescope have already found it; every good eye will now make it out, and in May it will be sweeping broad trail across the heavens, grand and awe-inspiring.

The man who does not know where he is sailing always complains of the winds.

Geographical.

Prof. Hergesell, who went to St. Thomas for the purpose of superintending the international atmospheric exploring balloon ascensions in the West Indies, announces that the trade winds have been successfully investigated.

Westerly trade winds were found up to a height of 5,000 meters, and above these violent southwesterly winds prevailed, moving at the rate of forty meters a second. The greatest height attained by the balloons was 47,600 meters, where the temperature registered 81 degrees below zero centigrade.—Morgenpost.

Money Comes in Bunches

to A. A. Chisholm, of Treadwell, N. Y., now. His reason is well worth reading: "For a long time I suffered from indigestion, torpid liver, constipation, nervousness and general debility," he writes. "I couldn't sleep, had no appetite, nor ambition, grew weaker every day in spite of all medical treatment. Then used Electric Bitters. Twelve bottles restored all my old-time health and vigor. Now I can attend to business every day. It's a wonderful medicine." Infalible for Stomach, Liver, Kidneys, Blood and Nerves. 50c at all druggists.

Unfair Comparison.

Hank Johnson had long enjoyed the distinction of being the homeliest man in Canyonville, so it was somewhat of a shock to him when Steve Billings came into the Tourist's Retreat and announced "Boys,

there's a homelier man than Hank over at the depot. Feller by the name of Loomis, that gives lectures.

Without a word Hank started across the road and was gone some time.

"Wall," Steve said when Hank returned. "He's a professional."—Success Magazine.

Daily Thought.

The people who have had a bad

notion of God have also a bad state,

bad government, bad laws.—Hegel.

SPECIAL SERVICE.

We are a modest little paper.

We subscribe to a first class tele-

graphic news service, for which we

pay a round sum, and we maintain

a modest corps of correspondents in

Kentucky and Illinois, whose letters

and telegrams we publish and pay

for; and we have a staff of com-

petent local reporters and editors,

who cover the local news field quite

to our satisfaction and to the satis-

faction, we modestly apprehend, of

a majority of the families of Paducah.

We make no pretense of figuring

in that larger realm, which is

dignified by the presence of the Chicago

Tribune and Record-Herald, the

New York Sun and the London

Times.

We cover the real news of the

world; we may claim with all modesty,

concisely and promptly. In

fact, when we observe the delays in

transmission of the special service

of some of our ambitious contemporaries,

we are more than pleased with

the result of our methods. For

instance, Monday evening The Sun

completely covered the vatican incident,

including Colonel Roosevelt's

open letter to The Outlook, in which

he explained his correspondence with

Cardinal Merry Del Val and showed

that the understanding between

them was friendly. Our local morning

contemporary failed to show up

a line of the story Tuesday morning;

but blossomed forth this morning

under a two-column head with a

"special cable from Rome" on the

subject. Estimating cable rates at

a dollar a word, the morning paper's

enterprise, forty-eight hours late,

must have cost it not less than

\$2,000. Of course, that is a huge

sum for a Paducah paper, at the

2,000 words of his speech in last

evening's paper.

If we had been publishing a

special correspondent in Rome, we

would have secured more than four

and one-half lines by wire about the

Illinois local option elections; but

that is a matter of personal opinion

in the selection of news. Perhaps,

our morning contemporary threw

away several thousands of dollars

worth of words on the Illinois re-

sults to make room for the "cable"

from Rome, considering the latter

of greater local interest.

"They are demanding a constitution

in Monaco. As there are less than

20,000 people in that dependency,

it ought not to take long to

determine the will of the people."—

The Courier-Journal.

"Ah, but the color line! How

settle the age-long wrangle between

the black and the red!"—Harper's

Weekly.

And, then there's old Zero, too!"—

Courier-Journal.

And, the courts—who's going to

keep cases?

MISDIRECTED ENERGY.

Misdirected energy of independent

departments, corresponding to lost

motion of badly geared machinery,

is one of the evils of our present

system of municipal government.

The general council, which as a

body cannot be expected to have

accurate knowledge of the needs of

the streets, and the members of

which make no pretense of represent-

ing the interests of anything but

their respective wards orders

street and sidewalk work done. The

selections are made more or less as

the tariff is compiled, by swapping

votes, each endeavoring to secure

something for his ward. The result

is not always the concentration

of attention first on those streets,

which need attention the most, and

the consequence is patch work and

haphazard improvements, which do

not show the city up to the best

advantage, or work out most economically.

Monday night the general council

took preliminary steps to order

certain streets improved with side-

walks, curbs and gutters. It is evi-

dent that the council did not consult

the engineering department; because

the engineer informed the board

of public works last night, that

a system of storm water sewers—

another term for underground

drainage, where the surface is too

level for surface drainage—must

be laid before the sidewalks, curbs

and gutters are built. This opens

a new problem.

This is one obstacle. We haven't

heard from the street department;

but it is to be presumed that a com-

petent street inspector would know

better than a member of the general

council, which streets should

first be improved and how they

should be improved for the best in-

terests of the whole city.

Here the great advantage of the

commission form of government

with its correlated departments is

observable. The police, fire, public

works, parks, finance, clerical, tax-

ing and all other departments are

represented in the one governing

body of the municipality, which in

turn is subject to having its acts

vetted by popular vote; its conduct

directed by popular vote and its

members recalled by popular vote.

That is the purest form of Democracy,

with every voter directly partici-

pating in the government, and the

STATE PRESS.

For McCree.

The Democrats of Kentucky might

as well look the conditions in the

fact that exist if they would redeem

the state from Republican rule next

year. The state is Democratic, but

the party harness hangs more loosely

than in former days, and unless some

man is nominated for governor who

is clean and honest, and against

whom nothing can be said and in

whom the people have absolute con-

fidence, a Republican is sure to be

the next governor of Kentucky. The

people have over a year to profit by

the mistakes of the party from im-

pending peril, and if wise judgment

is exercised, personal preferences

laid aside, Hon. James B. McCree

will be the nominee for governor by

acclamation. There are many other

men who can win, but the best man

for the place just now is Governor

McCree, and no delay should be

experienced in uniting upon him and

making him the standard-bearer for

the next state contest. Victory

would be sure, and the state would

have four years of prosperity and an

administration which would meet the

approval of every citizen.—Caldiz

Record.

automobiles, the horse and carriage

is still as much used and in as

great demand as heretofore. In se-

lecting livery it is generally advisable

to apply to the services of a

concern of long establishment, such

as the Glauber Livery and Sales

Stable, which has extensive accom-

modation both in the way of horses,

carriages and equipment. The quarters,

100x200 feet in area, are located

on Third and Washington

streets and afford accommodation

for 75 head of horses and also a

fine assortment of carriages and

storage for quantities of hay, grain

and straw. The livery horses are

well selected for their driving and

endurance qualities and are kept in

the best condition. For instance, a

horse which has been driven in the

morning is allowed to rest during

the afternoon and in consequence

the patron is assured of obtaining a

fresh horse instead of a tired, jaded

animal. The line of carriages in-

cludes spiders, high phaetons, traps,

cut-under buggies, runabouts and

all livery equipment, while in

double-team accommodation coaches

and surreys are in service. Mr.

Glauber maintains a sales-stable in

which he holds periodical sales and

receives by the carload fine horses

from the markets of Kansas City,

Omaha and Chicago. These horses

are young and sound, hardy and

inured to climatic severity and

adapted for farming, driving, riding

and teaming purposes. James Glauber

is an experienced horseman and has

devoted 18 years to this business,

though still a young man at the

zenith of his commercial powers. His

success is largely due to his tire-

less efforts to give the public the

best possible service in every

branch of his activities.

JOHN CARTER
IS CONVICTED

IS GIVEN THE MAXIMUM PEN-

ALTY FOR MAN SLAUGHTER

Jury May Have Been Governed by

State's Pointing Out Motive

of Malice.

VERDICT PLEASES DEFENSE.

Aberdeen, Miss., April 5.—The un-

written law plea of John Carter was

today set aside by the jury trying

him for the murder of Dr. R. P.

Wendel last November. Manslaughter

was the verdict returned at 3:50

o'clock this afternoon, three hours

after the end of the argument, and

tonight, after hearing and overrul-

ing a motion for a new trial, Judge

Mitchell pronounced the maximum

sentence of twenty years in the pen-

itentiary. Although the state's at-

torneys confidently expected a con-

viction of murder, the family and

friends of the dead physician are sat-

isfied with the finding as a vindica-

tion of his character. Strangely

enough, the verdict also pleases the

defense.

George Mitchell and Judge Sykes,

Carter's attorneys, say that fight has

only begun, and consider that they

have gained a great deal in eliminat-

ing the charge of murder from the

case. They will take an appeal to

the supreme court. Carter himself

was not much downcast by the jury's

view of the testimony, which through

the better part of ten days has il-

luminated his doings on the night of

the tragedy at the Clifton Hotel,

from the time he took a drive after

supper with girls into the country

until a few hours later, when he pulled

off his shoes, slipped past his sick

wife's room in the Pickle House,

then entered and found her and Dr.

Wendel in the position which he al-

leged was compromising.

For a moment after his reading, he

looked very serious, but

Spring Wraps

\$5.90 to \$25

You will have to have a light wrap for these cool spring days--one that is stylish, serviceable and not too much; either in three-quarter or full length. Silk, heavy linen, white serge, navy serge, shepherd check, light covert cloth. Our coat variety will please you.

Have you bought your spring suit? Look at ours. Come down tomorrow.

—Col. Dick Holland, of Twenty-third and Jefferson streets, was more improved today than he has been since his illness and his many friends will be pleased to hear of his condition. He has been seriously ill several weeks.

—The Second Quarterly Conference of the Paducah circuit will meet at Lebanon next Saturday, April 9. The members and stewards are requested to be there. Rev. H. C. Johnson, conference missionary secretary, will be the principal speaker.

Mr. H. S. Hayden, of Benton, arrived in the city last night on business.

True Havana Flavour

That's the something which all cigar smokers are seeking and which few of them ever taste.

There's a new HUMIDOR in our cigar cases, though, which gives perfect aroma to every cigar in the case. It's a scientific innovation which keeps a stream of clean fresh air, of just the proper humidity and temperature circulating into every corner of the case. There's no more of that dry, flat, dusty taste.

Try one of our good cigars today and see the difference.

GILBERT'S Drug Store

Fourth Street and Broadway. Both Phones 77.

IN SOCIAL CIRCLES

Euchre Club Reorganized and Renamed.

The Euchre club, one of the pleasant social organizations of the winter, and suspended during the Lenten season, met yesterday afternoon with Miss Lillie Mae McGlathery, 235 North Seventh street, and reorganized for the spring and summer.

Miss Fred Paxton was elected president of the club, vice Mrs. Charles De Werthern, resigned. Mr. and Mrs. De Werthern leave soon for St. Louis to make their future home and their going is greatly regretted. The club name was changed to Mardi—significant of it being a Tuesday club.

At the close of the business session euchre was played at two tables. Miss Fred Paxton made the highest game score and captured a pretty embroidered jabot. The lone-hand prize, a jabot of Irish crochet, went to Miss Hazel McCandless.

Entre Nous Club With Miss Quigley. Miss Katherine Quigley will entertain the Entre Nous club at her home in Arcadia on Thursday afternoon at 2:30 o'clock. Bridge will be the game of the afternoon.

Sewing Bee Entertained By Mrs. Riecke.

Mrs. Calhoun Riecke is hostess of the Sewing Bee this afternoon at the apartments of Mrs. John Brooks on West Broadway.

Board of Woman's Club Meets.

The executive board of the Woman's club met at the club house at 10 o'clock this morning in regular business meeting preceding the open session of the club on Thursday afternoon.

Matinee Musical Afternoon.

The Matinee Musical club meets this afternoon in regular bi-weekly session at the Woman's club building. Mrs. George B. Hart will preside in the absence from the city of the club president and leader for the afternoon, Mrs. Hubbard S. Wells. The program is an attractive miscellaneous one, featured as follows:

1. Quartet for ladies' voices, "Spring" (Gade)—Mrs. Lela Lewis, first soprano; Miss Anna Hill, second soprano; Mrs. George B. Hart, first alto; Mrs. Clarence Krug, second alto. Accompanist, Miss Lela Reed.

2. Soprano solos: (a) "Expectancy" (b) "Reawakening" (Frank La Forge)—Miss Rogers.

3. Three Lyrics, "Love Life" (Clough Leichter)—Mrs. Lela Wade Lewis.

4. Piano solo—Miss Anna Hill.

5. Violin solo—Mr. Deal.

6. Two songs by Bruno Huhn: (a) "I Mind the Day" (b) "In Merry Month of May"—Mrs. James Wells.

7. Paper, "Music of the Seventeenth Century"—Mrs. John Little.

8. Etude No. 11 (Rubenstein)—Mrs. George B. Hart.

9. Quartet for ladies' voices, "Summer Night" (Gade)—Mrs. Lela Lewis, first soprano; Miss Anna Hill, second soprano; Mrs. George B. Hart, first alto; Mrs. Clarence Krug, second alto. Duet accompaniment by Miss Reed and Miss Puryear.

U. D. C. Chapter.

Paducah chapter, U. D. C., met at the Woman's club yesterday afternoon in monthly session and enjoyed a most delightful program. "The Secession of Virginia" was interestingly discussed by Mrs. Elizabeth Austin. Mr. Robert Scott sang "Carry Me Back to Ole Virginia" in a most effective way. During the afternoon a sympathetic tribute to the memory of Mrs. Basil W. Duke, of Louisville, was read before the chapter. The hostesses of the afternoon were Mrs. Joseph Gardner, Mrs. Lela Wade Lewis, Mrs. H. P. Hawkins and Mrs. George Kolb. Delightful refreshments were served.

Contributions for Home of Friendless Guild.

All members of the First Presbyterian church who have promised contributions to the Needlework Guild for the Home of the Friendless are requested to send them in to the chairman of that church, Miss Clara Riecke, 528 Kentucky avenue.

Attractive Civic Program at Woman's Club.

The Woman's club will meet in regular session on Thursday afternoon at 2:30 o'clock at the club building. The usual informal club tea will be enjoyed under the auspices of the Hospitality committee between the business session and the open meeting.

The Civic department, Mrs. John Taylor, chairman, will present an attractive program at the open meeting at 4 o'clock. The musical features will be a piano solo, by Miss Lillie Mayes Sutherland, a talented

Paducah girl, recently returned from 2 years' study of music in Chicago, and a vocal solo by Mr. Richard Scott, the clever actor, who is not without honor in his home town as well as elsewhere. The speaker of the afternoon is the Rev. H. W. Burwell, D. D., of the First Presbyterian church, who will lecture on "Civic Interest." Dr. Burwell is an eloquent and graceful orator and has made an especially happy impression during his stay here.

Card Party at Elks Club.

The girls will have a card party at the Elks' club house tomorrow afternoon at 2:30 o'clock. This is the regular Thursday afternoon series for Ladies' Day.

Mr. Hade Nelson, of Hampton, is visiting Mr. and Mrs. Owen Nelson, of Caldwell street.

Mrs. Max Levy and daughter, Miss Bessie Levy, of Lake Providence, La., are visiting Mrs. A. Rosenthal, 1716 Harrison street.

Mr. Thomas Hudgings, of Tampa, Fla., is visiting friends in the city.

Mr. W. J. Hills left yesterday afternoon for Nashville on business.

Mr. C. J. Crawford, of Meridian, Miss., is in the city visiting friends.

Mrs. W. M. Tucker, 701 South Eleventh street, is ill of the grip.

Denny P. Smith, of Cadiz, was in the city last night on business.

County Judge W. I. Clarke and J. L. Abell, of Smithland, were in the city today en route to their homes from Frankfort.

Mr. John S. Clark, of Tulsa, Okla., returned home today after a visit to his mother, Mrs. W. C. Clark, 1311 Broadway.

Attorney C. C. Grassman was in Brookport today on business.

Attorney D. G. Park attended circuit court in Mayfield yesterday.

Meers, S. R. Douthitt and J. N. Harris, of Mayfield, returned home last night after spending yesterday here.

Architect W. L. Brainard returned yesterday from Mayfield.

Mr. George Baker, of Dawson Springs, passed through the city today en route home from a business trip to Metropolis, Ills.

Mr. and Mrs. L. C. Conley, of Goconda, are the guests of their daughter, Mrs. A. A. Epperheimer, on Trimble street.

The Rev. Charles L. Biggs and Mrs. Biggs, of Henderson, are visiting the Rev. D. C. Wright and Mrs. Wright, at Grace church rectory.

Mr. D. W. Coons, formerly secretary of the Commercial club, but now connected with the Voorman Realty company, of St. Louis, was in the city today on business.

Mrs. Elizabeth Tandy left this morning for Frankfort.

Mr. G. W. Katterjohn returned from a short business trip to Mayfield this morning.

Mrs. J. E. McWaters left today for her home in Drisburg, accompanied by Master Charlie Thompson. She visited her daughter, Mrs. Onie Dycus, of 422 Nineteenth street and her niece, Mrs. Mollie Thompson, of 519 Jackson street.

She Saves the Fare. The beautiful woman in the Russian pony coat stopped at the foot of the stairway in the Brooklyn Bridge subway station and raised her voice in fervent appeal to anybody who happened to be within hearing distance.

"Oh, dear!" she wailed. "I forgot."

"Forgot what?" asked a sympathetic woman who stood near.

"Oh, nothing. But maybe I can get it yet," said the fur-clad sufferer.

An instant later she pounced upon a subway employee stationed on the platform.

"Do they keep newspapers down here?" she asked.

"No," said he; "they're upstairs."

"Can I go up and get one and come down again without paying another fare?"

"No," he replied again. "If you pass through the gate you will have to pay."

"Isn't that a shame?" sighed the Russian pony woman. "I can't do that. This old road gets enough of my money, anyway, without my deliberately throwing money into its pocket. Still, I do want a paper so badly."

"What paper do you want, ma'am?" said the employee. "I'll go up and get it for you."

"Will you?" exclaimed the beauty. "Oh, how sweet of you. I hate to put you to all that trouble, but I must have a paper and I simply can't afford to pay an extra fare."

She gave him a cent, and in less than a minute he was back with a paper.

"Oh, thank you," she said sweetly. Then she opened her purse, took out a coin and dropped it into the employee's hand.

"For goodness sake!" exclaimed the sympathetic woman. "Did you tip him?"

"Yes, of course," said the beautiful woman. "I gave him a dime."

Preacher For Supervisor. Murray, Ky., April 6 (Special).—The Rev. W. O. Hargrove was elected county road and bridge supervisor yesterday by the Calloway county fiscal court. The Rev. Mr. Hargrove has taken considerable interest in politics. He will succeed J. H. Clark.

Democrats Nominate. Indianapolis, April 6.—Congressman Charles A. Korbly was renominated for congress by the Democrats of the Seventh district today.

Most moral astigmatism is due to the squint of envy.

Palmer House Barber Shop

BIG STABLE FIRE CAUSES TROUBLE

DEPARTMENT HAS HARD FIGHT AT THE ICE COMPANY'S BARN.

Excellent work by the fire department this morning at 10:30 o'clock saved the large stable of the G. W. Robertson ice company from complete destruction when fire was discovered in the feed loft on the second floor. The fire was not discovered until it had gained good headway, but with three streams of water the firemen soon drenched the blaze after damage to the extent of between \$500 and \$1,000 had been done.

Nobody knows how the fire originated, but it was discovered by workmen employed in the stable. The alarm was given and all of the stock in the stable was quickly removed without difficulty, while the ice wagons and equipment in the stable were removed. Hoses companies Nos. 1 and 3 and truck company No. 4 answered the alarm quickly, and confined the blaze to the upper story.

The fire started in the feed loft, which is near the middle of the barn. Practically all the hay and feed was ruined by the water, while the paper roof on the building was damaged badly. Mr. George Robertson resides on the second floor in the front of the building, and his household goods were damaged by thick black smoke, but the firemen cut off the flames from reaching his residence. The entire stable was well soaked with water before the fire was conquered.

Insurance was carried on the stable, but Mr. Robertson estimates that it will cover only about half of the loss. Mr. Robertson said he did not know how the fire was caused.

Circus is Coming.

Joy will reign in the hearts of the youngsters, for a real circus will visit Paducah early this season. This morning the brightly painted advertising car of the Norris & Rowe circus arrived in the city, and a small army of bill posters were busy plastering the gayly tinted lithographs over the city and county. The circus will be in Paducah on April 20.

Geo. W. Galbraith.

Clinton, Ky., April 6.—George W. Galbraith, for many years a prominent citizen of Clinton, died at his home in Charleston, Mo., Sunday morning. He came here for medical treatment several weeks ago and had been home only ten days when the end came. He is survived by one son, Henry, and a daughter, Nina.

Plans For Carmack Memorial.

Nashville, Tenn., April 6.—Allen G. Hall, chairman of the Carmack memorial committee, has called a meeting of the committee for next Saturday, at Nashville, to take steps toward completing the plans for the monument to be erected on Capitol Hill.

Swears Thief Takes Watch.

When Grover McGuire, a young man, went to take his gold watch from his dresser drawer at a local boarding house yesterday evening, the time piece was missing. He had placed the watch in the drawer yesterday morning before going to work and some sneak thief is believed to have entered the room that day. The robbery was reported to the police and they are at work on the case with several clues.

Elks Install Tonight.

Officers for the Elks lodge who were elected two weeks ago, will be installed tomorrow night at the regular meeting of the lodge.

ILLINOIS WETS

GAIN NINETEEN

VOTING TOOK PLACE IN 240 CITIES AND TOWNS.

"Bath House" John Coughlin Re-elected to Chicago Board of Aldermen.

COUNCIL IS NOW DEMOCRATIC.

Chicago, April 6.—Incomplete returns at a late hour on the local option issue voted on in 240 cities and towns throughout Illinois indicated a gain for the "wets." Those figures showed that 32 towns changed from dry to wet and 13 changed from wet to dry. Of 93 towns, 48 voted wet. The issue was not put before the voters of Chicago, the plans for so doing having fallen through because of alleged insufficient signatures to the petition.

Voting Wet.

Springfield, by 1,247; Fourth ward only dry; Decatur, Dana, Princeton, after being dry two years; Danville, township also wet; Georgetown township also wet; Mattoon, Bloomington, Clinton, Bushnell, Pontiac, Odell, Elgin, Woodstock, Manitou, Grayville, the only wet spot in White county; Penson, Havana, Moline, Rock Island, Lincoln, Bath, Middleton, Green Valley, Farmersville, Nokomis, Shelbyville, Virden, Rockford, Florence, Oregon, Plainfield, Freeport, Shanon, Centralla township, Winslow, Elm River, Secor, Warren, Joliet, Lockport, Peoria county. Townships of Oak Hill; Varna; Dunlop; Blumfield; Elmwood. Marissa, the only dry town in St. Clair county. Effingham, Altamont, Sandoval, was dry; Strassburg, was dry; Aurora, St. Marie, Minonk, Fahrli, Fairburg, North Leitchfield, Bunker Hill, was dry; Brooklin.

Voting Dry.

Christian county, except Pana; Monmouth; Geneva, St. Charles, Batavia, two years ago voted wet; Marango, Lexington, Galesburg, Denver, Leroy, Sibley, Taylorville, Stonington, Morrisville, Palmer, voted wet two years ago; Carmi, Atlanta, Keokuk, New Holland, Mason City, Mount Pulaski, Tremont, Barry, Divernon, Elm Grove, Delevan, New Salem, Washington, Champaign, Hillsboro, Urbana, Paris, Mowukua, Vandalia, Easton, Nilwood, Waynesville, Emden, Hartsburg, Weston, Maroa, Channahon, Manhattan, Troy, Peconia, Panola, Lena, Carrollton, Elpaso, Minier, Shawneetown. All of Gallatin county now dry. Grand Tower, had been wet; Mt. Vernon, Olney, Marshall, New Canton, Odlin, Harrisburg, Flora, Litchfield, Carbondale, Hopdale, Anchor, Colfax, McLean, Heyworth, Cookville, Gibson City, Farmer City.

Democrats Win in Chicago.
Chicago, April 6.—In the election of one alderman from each of the 35 wards the Democrats elected 21 candidates, Republicans 1, Independents 2. The new council will be composed of 29 Democrats, 29 Republicans and 2 Independent, the Democrats thus knocking out the Republican majority. Alderman John Coughlin, of the First ward, was re-elected by a large majority.

Except for the arrest of about 40 saloonkeepers for keeping open during the voting time, the election was quiet.

Dr. Sarah Janson, suffragette, appeared and demanded a ballot at the polls. Her name appeared on the list of "registered voters" but she was not allowed to vote.

Social Democrats Win.
Milwaukee, Wis., April 6.—The So-

CURING CATARRH.

Accept Our Advice and Try this Remedy at Our Risk.

Catarrh is a disease of the mucous membrane. The mucous membrane is, one may say, the interior lining of the body. Catarrh therefore may exist in any part of the system.

When the catarrhal poison attacks the mucous membrane, inflammation and congestion are produced and nature fails to throw off the accumulated poisons. The organ which has been afflicted ceases to perform its proper function as nature intended it should. The result is, complication upon complication, which may lead to other even more serious afflictions.

We honestly believe Rexall Muc-Tone will do wonders toward overcoming catarrh. It is made from the prescription of an eminent physician who made a long study of catarrh, and his great success with this remedy was an enviable one.

We want you if you are a sufferer from catarrh in any form, to give Rexall Muc-Tone a thorough trial. Use it with regularity and persistence for a reasonable time, then if you are not satisfied, come back and tell us, and without question or formality we will hand back to you every cent you paid us. This is certainly the fairest offer that anyone could make and should attest our sincerity of purpose. It comes in two sizes, prices 50 cents and \$1.00. Remember you can obtain it only at our store.—The Rexall Store, W.

Better look over your policies, at once.

cial-Democrats, led by Emil Seidel, candidate for mayor, swept Milwaukee in the municipal election by 8,000 votes, or the largest plurality any party ever received in a similar contest in the history of the city. The Social-Democrats will control the common council, having elected all six aldermen at large and carried 14 wards out of 23. V. J. Schoenecker, Jr., Democrat, who ran second, was about 8,000 ahead of Dr. J. M. Bieffel, Republican.

The platform of all three parties, which are similar, advocate home, the initiative and referendum, and regulation of the liquor traffic.

Victor L. Berger, a national character and a leading Social-Democrat, was elected alderman at large. Berger said:

"This is the first time in the history of the country that the Social-Democrats have carried a large city. The party will give Milwaukee the best administration it ever had or that any American city ever had. A square deal for everybody will be our aim.

Outside of Milwaukee, the interest of the state centered in the vote on the question of wet or dry. The larger cities to vote license were Racine, Janesville, Beloit, Baraboo, New Richmond, Platteville, River Falls, Fond Du Lac, Hudson, Delavan, Monroe, Trempealeau, Marinette and Green Bay.

Edgerton, Barron, Grays Mills, Alma Center and Coon Valley changed from wet to dry.

Towns remaining dry: Stoughton, Vitouqua, Lodi, Cumberland, Broadhead, Viola, Dallas, Coloma, Oak, Lafarge, Argyle, Read Town.

The following elected Republican mayors: Black River Falls, J. J. McMillin; Lodi, George O. Gordon; Baraboo, Charles Dender; Platteville, L. L. Cleary; Elroy, John E. Hart; Plymouth, C. W. Starrett; Green Bay, Winfred Abramson.

Democratic mayors: Hudson, A. P. P. Kealy; Ripon, L. A. Kellogg; Chippewa Falls, John T. Twohy; Fond Du Lac, E. W. Clark; Antigo, E. W. Pynders; Portage, Moses J. Downey; Marinette, Joseph Fischer.

Mackinac Island Wet.

Mackinac Island, Mich., April 6.—The Island of Mackinac voted wet.

At St. Joseph, Mo.

St. Joseph, Mo., April 6.—Alva P. Clayton, Democrat, was re-elected mayor of St. Joseph by 2,504. His opponent, Frank B. Fulkerson, Republican, ran on a strict law enforcement platform. The vote is taken as an expression of the question of saloon regulation.

Fights in Danville.

Danville, Ill., April 6.—There were numerous election fights here. It was feared at one time that troops would be necessary. Judge Allen wanted to ask the governor to order out the local militia, but later the sheriff swore in enough deputies to preserve order.

POCKETS PICKED

FARMER SAYS HIS PASSENGER GOT HIS ROLL.

Exact Sum Found on Jim Taylor, Whom He Accused of the Theft.

On a charge of robbery, Jim Taylor, familiar in police circles, was held over to the grand jury in police court this morning under \$200 bond, in default of which he went to the county jail. Taylor was arrested at 3 o'clock yesterday afternoon by Patrolman Walter England on a warrant sworn out by W. G. Weatherford, a farmer of Ceeli, who says Taylor picked his pocket to the extent of \$19.75. The sum of \$8.00 was found on Taylor and ordered turned over to the police, until the case comes before the circuit court.

Yesterday morning Weatherford came to the city and is said to have given Jim Doolin \$1 to make a horse trade. Doolin saw Weatherford take the money from a bag containing the \$19.75. When Weatherford started home Taylor asked to ride and sat beside the farmer. He left the wagon after going a few blocks, and when Weatherford felt for his money it was gone. Weatherford is paralyzed in both limbs.

Other cases this morning were: breach of peace, J. W. Harvey, fined \$20; Will Johnson, colored, fined \$1.

A Practical Way.

A professor at a well known engineering college says that but for occasional innovations in the application of learning, such as the following, he would find it hard to judge the extent of his usefulness.

This question was asked upon an examination paper: "What steps would you take in determining the height of a building, using an aneroid barometer?"

The answer was: "I would lower the barometer by a string and measure the string."—Everybody's.

Hated is never so loathsome as

THE SMOKE HOUSE

CATARRH GOES.

So Does Sore Throat, Bronchitis, Croup and Asthma.

You can easily tell by reading the symptoms below, whether you have catarrh or not:

Offensive breath, frequent sneezing, discharge from the nose, stoppage of the nose, huskiness of the voice, tickling in throat, droppings in throat, a cough, pain in chest, loss of strength, variable appetite, spasms of coughing, low spirited at times, raising of mucus, difficulty in breathing, loss of vital force. W. G. Gilbert has a sensible remedy (money back if it fails) for catarrh, called Hyomei (pronounced High-o-me) which is a vaporized air, so antiseptic that when it is breathed over the inflamed and germ-infested membrane, it kills all germ life, gives relief in two minutes, and cures catarrh.

The price, including hard rubber inhaler, is only \$1.00. The hard rubber pocket inhaler will last a lifetime so that should you need a second bottle of Hyomei, you can get it for 50 cents.

BUSY SEASON FOR CITY TRANSFER CO.

Unexcelled in Equipment For Performing Hauling of All Kinds—Special Facilities For Heavy Cargoes.

In a growing city like Paducah well equipped and ably managed Transfer Companies are one of the most appreciated of modern public utilities. This is shown by the operations of the City Transfer Co., on Second and Washington streets, whose business increases every year and practically covers the city and suburbs. This enterprise holds its great popularity against all competition by reason of the excellence of its service and the obliging methods of its management. The City Transfer Co. is largely patronized by the manufacturing and wholesale interests of Paducah, particularly as it makes a specialty of heavy hauling, meets all trains and conveys consignments promptly, thus relieving the merchant or consignee of any unpleasant delay. The company has specially equipped wagons and lifting devices for moving pianos, safes and machinery of all kinds, such as engines, boilers and dynamos. They have large padded vans for moving furniture and maintain a warehouse where household furniture, pianos, carriages and other chattels can be safely stored and protected against fire, burglary or vermin. The company makes a specialty of transferring household goods from the city to any given point, employing experienced packers to prepare the goods for shipment and assuming all responsibility of consignments to their point of destination, where they are met by correspondent firms and delivered to the final destination. They also forward freight to any desired point and in every way relieve the business man or householder of much anxiety, worry and labor. The City Transfer Co. was established in 1906 and contributes to the public welfare through its employment of 25 or more men and its expenditure in facilities, improvements, etc. C. L. Van Meter, the manager, enjoys the highest possible reputation for capability and trustworthiness. The rates for all class of service are reasonable and in every respect the activities of the company are far-reaching and effective.

WATER NOTICE.

Patrons of the Water Company are reminded that their rents expired March 31. Those who desire to renew them for this quarter should do so before it is forgotten, as all premises not paid for on or before April 10 will be shut off.

"Wouldn't a railway increase the population of this village?" asked the enterprising person. "Dunno," replied the native. "It 'ud be a constant temptation to a lot of us inhabitants to get away."—Washington Star.

STORM WATER MUST BE TAKEN CARE OF

DRAINAGE QUESTION ENTERS INTO SIDEWALK PLANS.

City Engineer Talks Before Board of Public Works About Problem.

WILL PAINT MARKET HOUSE.

A new obstacle or rather old one to City Engineer L. A. Washington, confronts the city in the building of the many sidewalks for which resolutions were passed by the general council Monday night. At the meeting of the board of public works last night the city engineer said that it is an impossibility to care for the drainage of the small gutters of improved sidewalks at the street intersection. The only remedy is the installation of storm water sewerage and this is not contemplated by the city.

One way out of the trouble will be to construct deep concrete gutters, but when the streets are reconstructed with improved material in the future they will have to be torn up. The territory of the new sidewalks has no storm water drainage. Paducah is almost perfectly level and water cannot be run on that kind of a surface or uphill, according to the city engineer. The matter will be thrashed out by him and the joint street committee, to which the resolutions were referred, and if then seen fit to construct deep gutters it will be recommended. This will be the only manner to construct the sidewalks without storm water sewers.

President Rudy said he believes the sewer intakes are too large and children are in danger of falling in to them. The matter will be investigated by the board. Mr. Washington said to place bars in front of the intakes would cause the congestion of water. Intakes in other cities are even larger than those in Paducah.

Paint Market House.

Upon the recommendation of Marketmaster Albert Senner the city market house will be painted. It was ordered that bids be advertised for and Mr. Lack, of the board, will draw up the specifications with the marketmaster. The woodwork inside and outside will be given two coats of paint, the windows frosted and the benches outside on either end will be painted or varnished. Mr. Senner reported that the ceiling needed sweeping down and he was empowered to rent a ladder and employ men to do the work immediately. The market house is in a clean condition, the marketmaster having it washed out entirely.

It was announced that Contractor J. A. Miller & Son of Lynchburg, Va., were given an extension of ten days in which to begin the sidewalk improvements on North Twelfth street, Fountain avenue and Clay street. They are due by April 10. Notice was ordered served on W. B. Walters to replace a wooden sewer with tile pipe on property near Ninth and Caldwell streets. The property was sold to colored people several years ago by him and the building of wooden drain was against the ordinance. If he is at fault he will be required to remedy the condition, as the house on the property is in danger of falling.

Street Report.

The monthly report of street inspector Ernest Bell was received and filed. It showed the payrolls, expenses and gravel bills larger than in March 1909. March was an unusual month and more work was done by the street department than it is believed will be done in the next three months. The report was:

Payrolls—March 1909, \$554.95; March 1910, \$705.10.
Expenses—March 1909, \$133.52; March 1910, \$233.09.
Gravel—March 1909, \$346.50; March 1910, \$820.40.

City Engineer Washington was instructed to get an inspector for the new street work on Twelfth street, Fountain avenue and Clay street. Several inspectors will be needed when the other new sidewalk improvements begin.

A bill of \$6.60 for running a 44 lineal sewer pipe through the First Christian church property at Seventh and Jefferson street, was allowed, being recommended by the city engineer.

Must Repair Streets.

The city auditor was instructed to write the Southern Bitulithic company at Nashville that many blocks of streets here need repairing and for them to come and do the work immediately. Jefferson from Sixth to Eleventh streets is in a bad condition and there are holes in other bitulithic streets.

As soon as Contractor Andrew P. Humbug repairs the curbs of the

To Our Dear Friend The Merchant:

Do you know how to sell goods? Your clerks, of course, know how to sell goods when people call and ask for them.

But when people do not call and ask for what they want and what you have in stock, what then?

Let the people know what you have.

Our columns are open to advertisers with bargains who want to connect with bargain hunters.

concrete sidewalks on Harahan boulevard, constructed in 1906, the bill of \$500 will be paid on recommendation of the city engineer. The bill, originally for \$556.87, was presented in 1906, but not paid as the city engineer said it was excessive. A letter received from the contractor's attorneys, Wheeler Hughes and Berry, asking for the payment. The bill has been reduced to \$56.87. The work was done under a five year bond to keep it in constant repair.

The auditor was instructed to write to the Fidelity and Casualty Insurance company for two separate rates on an indemnifying policy for people at large and employees of the city lighting plant. A rate will be asked on a basis of \$5,000 for payrolls. The city solicitor had recommended this policy but it is not clear.

Oil Arrives.

A bill of lading from the railroad for 6,040 gallons of crude petroleum oil shipped from the Standard Oil company for \$167.55 was presented. The rate of that company was 3 1/2 cents. A quotation was received from the Southern Asphalt and Road company, of Louisville, for the same price, the oil to contain 50 per cent asphaltum, which will prevent speedy evaporation. The car of oil has arrived but the streets will not be sprinkled until dry weather sets in.

Superintendent W. H. Force, of the light plant reported he had sold old scrap iron for \$25.62.

INDIANA G. O. P. INAUGURATED POLITICAL BATTLE OF 1910.

Denounced Payne-Aldrich Law—Convention Endorses Taft.

Indianapolis, April 6.—The Republicans of Indiana, in their convention today inaugurated the political campaign of 1910 by the selection of a state ticket, with the exception of governor and lieutenant governor, and the adoption of a platform that endorses the protective tariff, tariff commission, conservation of natural resources, the Roosevelt policies, and the administration of Taft.

The ticket is as follows: For secretary of state—Otis E. Guiley, of Danville.

Auditor—John E. Reed, of Muncie.

Treasurer—Johnnie Monahan, of Orleans.

Clerk of the supreme court—Edward V. Fitzpatrick, of Portland.

State statistician—John L. Peetz, of Kokomo.

Superintendent of public instruction—C. C. Farrell, of Shelbyville.

Attorney general—Finley P. Mount, of Crawfordsville.

State geologist—W. S. Blatchley, of Terre Haute.

Judges of the supreme court—Second district—Oscar Montgomery, of Seymour; third district—R. M. Miller, of Franklin.

Judges of the appellate court—First district—C. C. Hadley, of Indianapolis; Ward H. Watson, of Charleston; third district—D. W. Comstock, of Richmond; Joseph M. Rabb, of Williamsport; H. B. Tuttle, of Michigan City.

Congressman Charles Korbly was renominated for congress by the Democrats of the Seventh district today.

There is no such thing as divine service to you if you cannot make all service divine.

COUNTY BOARD OF COMMISSIONERS

WORKS WELL IN KENTON COUNTY, KENTUCKY.

Senator W. V. Eaton Has Witnessed Success of Plan and Approves It.

NATURE OF BILL JUST PASSED.

Many questions have been asked concerning the county commissioner bill passed by the last legislature. Senator Eaton today explained that this bill permits the county court clerk to cast the deciding vote in case of a tie. The commission was provided for by a bill passed in 1892.

Senator W. V. Eaton, of Paducah, believes commissioners for counties are proper. He has seen the success of the system in Kenton county, the only county in the state that is managed by a commission.

The commission is composed of three men, elected from the county, who constitute the board of commissioners together with the county judge. The commission takes the place of the fiscal court and manages the fiscal affairs of the county. Magistrates are necessary but they do not constitute the fiscal court.

Kenton county has been operating under the commission form of government since 1892 and it has met with good results. Last year when an important question came before the commission there was a tie vote, and for the benefit of Kenton county a bill was introduced in the last session of the legislature, permitting the county clerk to cast a vote in case of a deadlock.

The law, permitting counties of the state to adopt the commission government was passed in 1892. It is not whether McCracken county will ever adopt the plan.

If the residents of the county want the form of government, which entails probably less expense than a fiscal court, they must act first. Before anything can be done a petition signed by 350 qualified voters of the county must be sent to the fiscal court, asking for a vote on the commission. Then the county judge calls an election. If a majority of the voters favor it, the county judge divides the county into three districts as nearly equal as possible. Then at the next regular election the vote for a commissioner from each district is taken. Upon their election they, with the judge, comprise the board of commissioners. The law provides that a vote on this question can be taken only once in every eight years.

Senator Eaton believes that three good business men from each district would manage the affairs better than a fiscal court.

MILK INSPECTOR'S REPORT

"Have you been married, Bridget?"

"Twice, mum."

"And have you any children?"

"Yis mum—I've three. One be th' third wife av me second husband, a' two be the second wife av me first."

—Cleveland Leader.

Dictate to the DICTAPHONE

The Picture Tells the Whole Story

The Busy Man Doesn't waste a second of his valuable time waiting for a stenographer. He turns to his Dictaphone as he would to his telephone and gets the thing done. He talks naturally, just as he would talk if the man to whom he is writing were sitting by his desk. He has no speed limit. Result: Letters that have ginger, letters that convince, letters that sell the goods.

The Operator Has the whole day to get out the mail instead of only half the day or two hours at the day's end. No eye-strain from looking on and off her notebook. Absolute regulation of the speed at which the dictation is reproduced. No time wasted taking short-hand notes. No interruption to take dictation while transcribing the mail. She gets through and goes home on time.

The Cost Doesn't figure at all. The machine will cut your correspondence expense in half. It won't take long to save the cost of installation. President Johnson, of the American Lumber Company of Pittsburgh, figured that he saved the cost of a twelve-machine outfit the first eight months after it was installed.

THEODORE ROOSEVELT TOOK A DICTAPHONE TO AFRICA.

Dick Fowler for Cairo.

Clyde for Waterloo, Ala.

J. N. Trigg for Chattanooga, Tenn.

Nashville for Nashville.

Ohio for Golconda.

Cowling for Metropolis.

T. H. Davis for Joppla, Ill.

River and Weather.

Gauge at 7 a. m. read 10.7 feet, a fall of one-tenth of a foot since yesterday. Weather cloudy and cold; business good.

Notes and Personals.

Charles Hamlet is now serving on the Electric in the Nashville and Evansville trade.

The T. H. Davis returned to Joppla this morning at 7:30 o'clock with the tow of the Little Clyde, which arrived from the Tennessee early this morning.

Delayed six hours by the high wind the Nashville arrived shortly after midnight with 10 passengers, 25 of whom were roundtrippers from Clarksville. She brought 35 hogs, heads of tobacco for the local market and a large shipment of household goods. She left at 8 o'clock for Nashville.

Hugh Edwards has succeeded Andy Joyce as second engineer on the Nashville.

T. M. Gallagher, who was head clerk on the Nashville, has been made city agent for the boat at Nashville.

TO KENTUCKY LINE.

Street Cars Are To Be Run From Clarksville.

The Clarksville & New Providence railway company has been organized with a capital stock of \$25,000, with the following gentlemen as incorporators: Austin Poy, N. L. Carney, L. Block, Elwyn Trahern and A. C. Murray. This company proposes to construct a trolley line from Clarksville to New Providence and then out the Hopkinsville pike to the Kentucky line. It is thought this line will be built in a short time and the general impression exists that it will be very profitable. —Leaf-Chronicle.

COUNTRY CLUB PLAN IS DROPPED BY PROMOTERS.

The proposed country club has fallen through. This discouraging announcement was made this morning by Attorney J. D. McQuinn, who is vice-president of the association, that was organized a few weeks ago. The reason for this is attributed to the large expense attached to the proposed work. The golf links, however, will be worked over this season and the club house given some improvements.

Goes to Albuquerque.

W. E. Baker left for Albuquerque, N. M., where he has accepted a position as special agent for a railroad. Mr. Baker returned to Paducah yesterday from Greenville, where he has been visiting his brother, Claud Baker, who is improving from an injury received several weeks ago by falling from a counter.
